

MOCK PACES Examination

Monday 31st October 2016

Course fee
£120

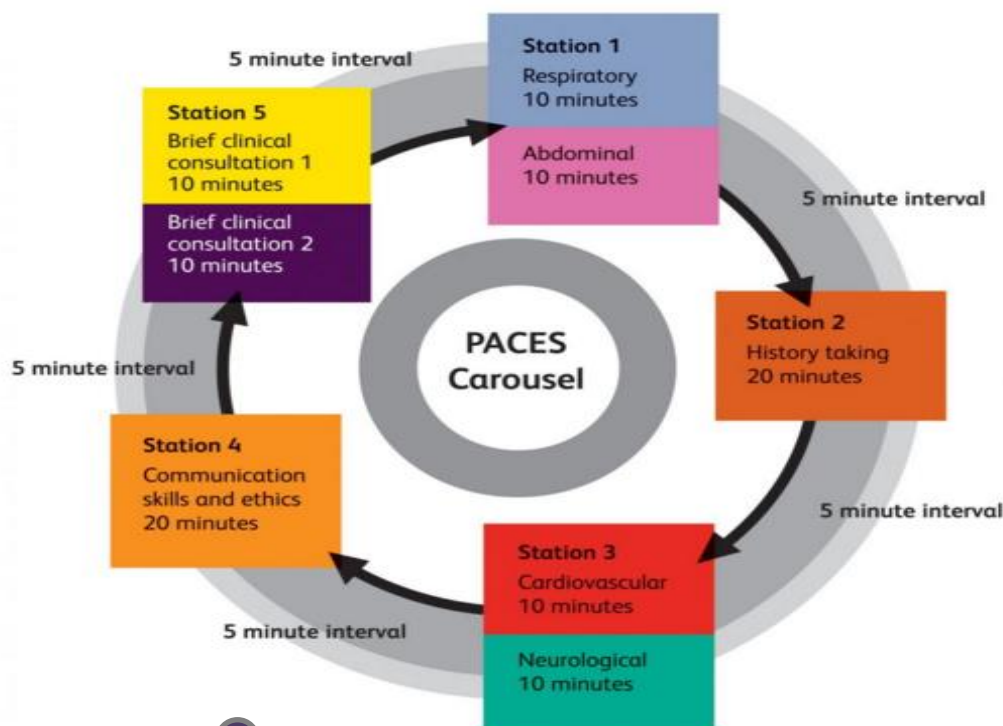

1.15pm – 5.00pm

Weston Education Centre – King's College Hospital Denmark Hill

Practical Assessment of Clinical Examination Skills – PACES, is designed to test the clinical knowledge and skills of trainee doctors who hope to enter higher specialist training (ST3). The exam sets rigorous standards to ensure that trainees are competent across a range of skills and ready to provide a high standard of care to patients. The mock PACES exam enables candidates to reflect on their strengths and weaknesses whilst under the pressure of an exam setting.

The PACES examination consists of five clinical stations, each assessed by independent examiners. Candidates will start at any one of the five stations and then move round the carousel of stations at 20 minute intervals (Figure 1), until they have completed the cycle. There is a 5-minute period between each station. Run in accordance with MRCP(UK) regulations to give real life experience of examination conditions.
